Applicant: Fred S. Lamb

Examiner: Jennifer Kim

Serial No.: 09/512,926

Group Art Unit: 1617

Filed: February 25, 2000

Docket: 875.039US1

Title: METHODS TO REDUCE THE SENSITIVITY OF
ENDOTHELIAALLY-COMPROMISED VASCULAR SMOOTH MUSCLE

DECLARATION UNDER 37 C.F.R. § 1.132

1. I, Alisia G. Dunbar, am a paralegal in the employ of Schwegman, Lundberg, Woessner and Kluth, P.A. As part of my duties, I prepared the Form 1449 submitted as part of the Information Disclosure Statement filed in the above-identified application on June 18, 2001.

2. On the Form 1449, I mistakenly identified the publication date of Lamb, F.S., "Supplemental Data to IRO1 18L62483-01 CIC-3 Chloride Ion Channels" ("Supplemental Data") as May 1995. In fact, however, the document was not published in May, 1995. Evidence of this is provided in the document itself. For example, page 1 of the document refers to three post-1995 journal articles, viz, Duan *et al.*, Nature, 390, 417 (1997); Lamb and Barta, Am. J. Physiol., Heart Circ., 44, H151 (1998); and Lamb and Barta, Heart Circ., 44, H161 (1998). As additional evidence, Appendix A, attached hereto, is provided. Appendix A is a cover sheet that accompanied the document when it was submitted to Dr. Anthony Chung of the Cardiovascular and Renal Study Section for review of the grant. Appendix A indicates that "Supplemental Data" was submitted for review on September 15, 1998.

3. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that the statements are made with the knowledge that willful false statement and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Center for Scientific Review
6701 Rockledge Dr. Room 4138
Bethesda, MD 20817

Dear Dr. Chung,

You will find enclosed 6 copies of supplemental data in support of my RO1 grant (1RO1HL62483-01)
"ClC-3 Chloride Ion Channels in Vascular Smooth Muscle" which was submitted in June.

Sincerely,

Fred S. Lamb M.D. Ph.D.
